

I would just like to make the point that i am a frequent traveller on the road in houston and benefit greatly from the real time traffic and weather that XM gives me. I also have much variety from such a system, one that can not be found on any FM or AM Dial. These are services i pay for and it should not be up to the NAB to dictate what i should and shouldn't listen to. I paid for a service that gives me the choice to listen to what i want, i am not listening to what people dictate i should be listening to. I strongly urge you to reject the NAB's petition 04-160 which is wrongful and unfair.
Regards

Alan McLauchlan
